

2018 Scholar Testimonial

Juan Caceres - University of Michigan Medical School

I am grateful for the opportunity to receive NHHF's financial support, which goes along with the idea of working together towards a healthcare system that provides high quality care to Hispanic patients and other vulnerable populations.

Knowing that I have the support of people before me serves as motivation to continue working towards my goal of becoming a

physician leader that paves the way for other Hispanic students and patients in the future.
