

2018 NY Scholar Testimonial

Ariadna Capasso - New York University, College of Global Public Health

I am very grateful to NHHF for believing in me as a public health professional who strives to improve the health of every Latino and Latina in the United States. I am also very proud and honored to have received this award, which has encouraged me to continue fighting to end health disparities through research and the promotion of evidence-based practices. I look forward to joining a network of like-minded health practitioners who have dedicated their lives to achieving this same aim.
